## **Food Allergy Safety in the Classroom**

# Reason For a Safe Zone

We have a child with food allergies in our classroom. I would appreciate it if we could all come together to help provide this child with a safe environment. As parents, you can help me by not sending in certain foods and by teaching your children to be careful when they share with other stu-

dents . The last thing you can do to help me is stress to your child that it is important to

wash their hands. I hope you can help me because I do not want to ban the children from bringing in food. I will place cleaning supplies around our classroom and have soap at all the sinks. Which will help protect the child if other students touched food that he cannot have. Thank you!

## Food Choices

### Cannot Bring

- Nuts
  - Peanut butter
  - Strawberries
  - Blueberries
  - Wheat
- \* If your child brings an affected food into class I will simply put it back in their bag and write a note reminding you to not send it in again.

## Miss. Williams

### Responsibilities For a Safe Zone

#### Clean:

I will keep the classroom clean by keeping wipes and soap in easy -to -reach places. Also I will clean students desk and supplies we use in class daily.

If you have any questions or concerns please call (878)-987-3259.
